

MINERS' STRIKE PUTS LONDON IN DARKNESS

SEIZURE OF THRONE BY CHARLES STILL LIKELY

PARIS — (By Associated Press) — Reports that former Emperor Charles has finally given up his attempt to regain the Hungarian throne and will return to his exile in Switzerland, without, however, consenting formally to abdicate, as requested by representatives of the Hungarian government, were not confirmed here this morning. These reports emanated from exactly the same sources as the news received late Thursday that he was marching toward Budapest with a force varying from 1,500 to 15,000 men. They are, therefore, received with considerable caution.

Despatches relative to the failure of the attempted coup d'etat come from Vienna, which has an old reputation as "Europe's Imaginative news center." The Temps declares the source of these reports "may be connected with the Anglo-Hungarian monarchist party" and competent opinion here remains somewhat skeptical. It is admitted, however, that the departure of Charles from Hungary is more probable than his success.

Telegrams from Vienna are delayed, and it would appear that reports from Budapest are being subjected to censorship. The United States navy telegraph line to Budapest failed yesterday afternoon, but the last news received over it stated that everything was quiet there.

SAFEGUARDS CONSIDERED
VIENNA — (By Associated Press) — Newspapers in this city appear to be certain that the episode resulting from the attempt of former Emperor Charles to re-establish himself as king of Hungary is ended. They today printed alleged details of the manner in which Charles would be taken across Austria to Switzerland, and some declared that the former monarch had left Steinhilber last night.

Reports from Hungary, however, failed to show matters have reached such a final stage. It has been learned that arrangements were completed yesterday for Charles' return from Hungary to Switzerland, and that he would be escorted by British, French and Italian army officers, who would be in command of picked forces of gendarmes.

PROTECTION SOUGHT
The attempted Hapsburg coup, which at one period last week, it is admitted, had nearly a chance of success, promises to have a very different effect. The Social-Democrats plan to introduce in the national assembly resolutions demanding that the government takes steps to hurry ratification of France and England of the Trianon treaty, providing for the surrender of West Hungary to Austria, and making provision for the protection of Austrian frontiers by the entente. They declare this action is necessary to prevent further royalist attempts at restoration. Agreement by the Austrian government for the safe conduct of Charles across the country was not secured without difficulties of a political nature.

DETROIT PRIEST IS SHOT TO DEATH IN HIS RECTORY

DETROIT — (By Associated Press) — The identity of the person who shot and killed the Rev. Leo Jarecki, rector of Our Lady of Mt. Carmel church, at Wyandotte, near here, last night, and the assassin's motive, remained shrouded in mystery early today. Authorities had established, however, that a person familiar with the priest's household was implicated in the act.

Father Jarecki was at the rectory with his housekeeper when he was

NINA MORGANA

Altho many of their friends in the musical world have been aware of the four-year engagement between Nina Morgana, a soprano of the Metropolitan Opera Company, and Bruno Zirato, secretary to Enrico Caruso, world-famous tenor, official announcement of the fact came as a surprise to the general public.

POLICE SEEK MARION MAN NOW IN CUBA

MARION — A fight to bring Claude T. Abbot, formerly of Marion, back from Santiago, Cuba, to face charges of embezzlement, was started today by Marion police, who asked the state department at Washington to extradite Abbot.

Abbot, who promoted the Cooperative Legion of America, and was Marion manager, is charged in an affidavit filed by Ernest C. Wideman, with embezzling \$1,700 in a stock transaction last January, and at the same time making away with \$100 of the Legion's funds. The Legion was an investment proposition.

Abbot married a Cuban girl in Columbus. Both he and his wife and her parents, who are said to be wealthy, are living in Cuba. He will fight extradition, Marion officials say they have learned.

CRIME WAVE HIT BY 'DEATH MACHINERY'

TRENTON — (By Associated Press) — Interesting light has been thrown on the operation and speed of "Jersey justice" as a result of recent convictions for murder and other crimes. While misdemeanors and felonies have increased in New Jersey, as elsewhere in the country in the past year or so, state records show that there have been few disagreements of juries and prison sentences have been extended to maximum limits in order to discourage violators of the law.

One feature of New Jersey law that few, if any, of the other states have and which is said to have been a prime factor in giving the state its traditional reputation for lightning-like court procedure is a provision that a jury in a first degree murder trial may designate life imprisonment instead of the death penalty for the convicted person. This has resulted in many quick convictions for life imprisonment where, otherwise there might have been jury disagreements.

JOB OF 48 HOURS
Cases like that of the Union-co bandits, Charles and John Krebs and Martin Shanahan, who were sentenced to serve from 56 to 75 years and each who were tried, convicted and were beginning to serve their sentences within 48 hours of their capture, are occurring almost daily in New Jersey, the present so-called "crime wave" apparently furnishing an excellent test for the efficiency of its courts.

"Jersey justice," famed from Maine to Florida, from the Atlantic to the Pacific and even overseas, not only because of its speed, its accuracy and its relentlessness but also because of its fairness and efficiency, was not established overnight. It is scarcely a tangible thing. It may be best described as a "state of mind", the people demanding that their law officers be efficient above everything else. Thus prosecutors, grand juries, judges, petit juries and all other branches of the administration of justice, which lead the criminal to prison and the murderer to the death chair, are just so many wheels and gears and belts in an almost perfectly-working "machine," whose motive power is the people.

SPEEDY CASES CITED
In July 1901, three young negroes, Aaron Timbers, William Austin and Jonas Simms, entered the home of a farmer named Biddle, near Burlington, bound Mrs. Biddle and attacked her. Within a few days all three were captured, tried, convicted and had begun sentences of 49 years each in state prison.

"Bill" Kramer, a Camden hold-up man who terrorized women, was recently captured and tried and convicted the next day. The evening of that day he was on his way to prison to begin a long term. Frank Guidara, a young motorcycle bandit, who held up a Public Service Corporation paymaster, stole \$4,000 and was shot 12 times in the body, was taken from a hospital to the Mount Holly court house and after being sentenced to 28 years was brought to prison the same day on a stretcher. Two companions received a life sentence.

Richard Hammock, a Paterson youth who held up and killed the driver of a silk truck received a life sentence and commenced serving it within a day of his trial.

OHIO BOY, 18, SHOT BY HIS BROTHER, 8
LANCASTER, O. — George Drake, 18 years of age, is in a dying condition in a hospital here today as the result of a "didn't-know-it-was-loaded" accident last night. He was shot in the back by his eight-year-old brother, Albert, who was heading a shotgun.

THIS TIME IT'S AMERICAN SINGER GOING TO EUROPE

Miss Kathryn Lee

Usually when one reads something in connection with the sailing of a concert singer it is of an European star sailing for America in search of new conquests. But here we have an American singer sailing for Europe to add more fame to her name. She is Miss Kathryn Lee, American soprano. She sailed recently for France to fill concert and opera engagements.

RAIL MEN AGAIN IN WAGE PARLEY

PITTSBURG — (By Associated Press) — The second of the series of wage conferences between executives of the Pennsylvania railroad company and representatives of employees, brought together here today the committee of managers of the road and the signalmen. The first conference, held Wednesday, resulted in a disagreement when the maintenance of way and structures and unskilled forces rejected proposed wage reductions of from 16 to 25 per cent.

In connection with the conference, the Pennsylvania company today made public data on proposed wage reductions, which shows that in 1917 the payroll took 46.5 cents of each dollar of operating revenues, against 71.1 cents in 1920. The payroll, according to the data, increased more than 313 per cent in 1920 as compared with 1915. Operating revenues increased 265 per cent in the same period, the statement said.

SUSPECT CLINGS TO HIS CONFESSION OF MURDER

CLEVELAND. — (By Associated Press) — Residents of Parma tonight will have an opportunity to identify a suspect, who, according to the police, has confessed several times that he is the slayer of Mabel Foote and Louise Wolf, Parma school teachers who were murdered in February.

The man, said by police to be a mental defective, will be taken before the citizens in the school house where the two women taught, on the theory that some one in the audience may have seen him on the day or before the murder.

The suspect clings almost precisely to the original story he told of the

TRAINS HALTED, MILLS STOPPED, MINES WRECKED

LONDON — (By Associated Press) — Six British coal mines, left to the mercy of rushing waters by the strike of miners and pumpmen, have already been flooded, and some are said to be in such condition that they may be permanently wrecked. Four of these mines are in South Staffordshire, one in the Forest of Dean, County of Gloucester, and one in Flintshire, northeastern Wales. Several of the older pits in the Lancashire district and in the Rhondda valley, Wales, are in imminent danger, and in most of the other coal districts of the island, clerks and volunteers are manning the pumps.

APPEALS MADE
Scores of telegraphic appeals reached the government yesterday, asking that salvers be sent to help fight against the floods of water pouring into the mines. Various coal dealers' associations are publishing appeals in newspapers, calling upon volunteers with engineering experience to give assistance. The government apparently is taking a grave view of the crisis and is laying plans to deal with emergencies.

Restrictions on train service will begin next Wednesday and a cut of 20 per cent will be made before the end of next week if the coal strike continues. Race meetings scheduled at Warwick, a mining center, next Monday and Tuesday, have been cancelled at the government's request.

BAN PUT ON LIGHTS
Another step taken has been to reduce coal consumption for industrial purposes fifty per cent, while domestic users of coal will be permitted to purchase only small amounts. Some of the illuminated signs in London already have been voluntarily extinguished, and it is expected that orders will soon be issued prohibiting all such signs. The government also is planning to impose restrictions on shop and street lighting and the public has been asked to economize in the use of gas, electricity and gasoline.

Another effect of the embargo on the exports of coal has been an increase for the demand of tonnage to carry American coal to British bunkering stations. A number of ships received orders last night to prepare to distribute supplies of yeast for the nation's bread, should the railroads be shut down. These supplies would be landed at various ports along the coast. All wireless stations were "tuned up" and constables were being enrolled every where last night.

The chairman of the London coal committee declares London has a supply of about three weeks, but if the present summerlike weather continues, it will last five or six weeks. There were no reports yesterday or last night regarding disturbances anywhere. Despatches stating that the miners were enjoying a holiday.

U. S. TAX LEAGUE IS FORMED

CHICAGO — Formation of the Farmers' Federal Tax League of America, which will oppose the federal sales tax, was announced today by Eugene Frey of Argyle, Ill., secretary and treasurer of the organization. George F. Comings, former lieutenant governor of Wisconsin, is president of the league.

"Powerful interests," said Mr. Frey, "are preparing to shift further the burden of taxation upon the farmers, and the farmers must organize to make felt their influence if this attempt is to be prevented."

GIRL IS SLAIN BY 'LOVESICK MAN'

SAN FRANCISCO — (By Associated Press) — Thirty police officers, with bloodhounds today were endeavoring to trail a man who last night shot and killed Miss Alice Byrbee, of Fresno, Calif., while she was passing thru a park on her way to a party.

A companion, Miss Virginia Thompson, said the man rushed from a clump of bushes, crying: "I am a lovesick man; I could kill both of you."

KILLS DEAN OF COLLEGE, SHOOTSELF

SYRACUSE, N. Y. (By Associated Press) — J. Herman Wharton, dean of the College of Business Administration, Syracuse University, was shot and killed by Homer Beckwith, professor of financial and insurance subjects in the college, this morning. Beckwith then turned the gun on himself and committed suicide.

SCENE OF TRAGEDY
The shooting occurred in the office of the school of administration in the College of Agriculture building, the new half million dollar structure donated to the University by Mrs. Russell Sage in memory of her father, Joseph Slocomb, and named for him.

Professor Beckwith had been unpopular with the students, it was said, and petitions had been circulated among the student body asking for his removal.

In a statement issued soon after the shooting, Chancellor Day declared that it was his belief that Dean Wharton died trying to prevent Professor Beckwith from committing suicide.

LEAVES NOTE

"This was indicated in a note left for Dean Wharton by Professor Beckwith," said the chancellor, "in which he intimated that he was going to kill himself and referred to alleged unjust treatment of himself being based on the fact that he had been dismissed, the dismissal to take effect at the end of the year. Dean Wharton's chair, a cloth one, was broken. He evidently leaped from it when Beckwith tried to kill him. The gun was turned on him and the dean was shot thru the head. Beckwith was shot in the chest. He also stabbed himself to make death certain."

THE WHIPPING POST

IN Connecticut the whipping post has been revived, says the Dayton News. In the cases of two men who were charged with hold up jobs, the men were lashed to a post and beaten by the sheriff of the county where this ancient law was invoked. There hardly has been very much said about this matter thus far, chiefly because the news stories concerning it were buried for the most part in newspapers which circulate in this section. In the east much more discussion has followed. It appears that there are anti-whipping-posters and pro-whipping-posters, about equally divided. This method of exacting justice at first glance is barbarous. To tie a human being to a post and lay on the cat o' nine tails doesn't possess much of mercy or humanity about it. On the other hand to hold up a fellowman at the point of a gun; sometimes to knock him unconscious; and in rare instances to kill him, besides being a barbarous practice, also is the greatest possible violation of law. And so between the crime and the practice of punishment for the crime there isn't much difference. Public opinion concerning the whipping post will be determined very largely by personal experiences. Any man who has undergone a severe experience in a hold up will be for it. Any woman who has been insulted or robbed by a ruffian would favor it. Those who have been more fortunate in their dealings with their fellow humans will look upon the whipping post as an extreme cruelty and a relic of the dark ages. And those who believe in the old law of "an eye for an eye and a tooth for a tooth" will say: "let justice take its course."

GETTING ON

THE German people are acquiring some of the attributes of democracy. They have advanced so far in the direction of republicanism that they are criticizing their government, is comment of the Toledo Blade.

The communist uprising has been in course of development for months, it appears. Checking it was the duty of local police quite as much as it was that of the central authority at Berlin. But when it came to finding fault with the want of preparation to meet the "revolution," the Germans, abandoning their old practice, have skipped the minor offenders and spoken their minds liberally and pointedly about the stupidity of the imperial ministry.

The incident ought to serve as one from which to date time. It represents a breaking with an inglorious past. Living under the Hohenzollerns the German people took the monarchial virtues for granted, avoided detraction. It led to governmental irresponsibility. It allowed the silly doctrine of the divine rights of kings to obtain growth. It resulted in the most tragic war with which the human race has been cursed.

The republican government may be judged unfairly by the citizenry. But that will not hurt it greatly. Rather, it will do it good by making it watch its step, circumvent the causes of criticism and compel it to remember the source from which it draws its powers.

Gradually, yet certainly, the Germans are getting on.

THE STATE OF LINCOLN

A NEW STATE—Lincoln—may be placed on the U. S. A. map if congress views with favor the Idaho disunion petition, proposed in the Idaho legislature.

Northern Idaho has asked the legislature of that state to memorialize congress in behalf of a new state, which is to include the Idaho panhandle, and possibly the western portion of Washington.

The petitioners want the new state to be named Lincoln. Spokane and Lewiston are suggested as possible locations for the capital.

Just recently the Pocatello chamber of commerce gave its approval to the new state movement. This is the first time it has met with

favor in southern Idaho.

The northern part of Idaho is closely connected with Spokane, more closely, in fact, than Spokane and eastern Washington are in touch with the western part of that state.

If there is to be a new state no better name could be given it than Lincoln.

THINKING AND ACTING

HOW many times have you faced the fact that some one else has made use of "your" idea?

In other words, how many times has the other fellow "beat you to it?"

If you are an advertising man it is probable that you have found in the newspapers an idea fully worked out which you had been turning over in your mind.

If you are a merchant or a manufacturer it is more than likely that you have suddenly discovered that some one has already put into operation a merchandizing idea which you had evolved and meant to use soon.

If you are a novelist, an essayist, a painter, a composer, or a sculptor, it is probable that some time in your career you have been chagrined to discover that some one else has had an idea which you thought was your exclusive property and has got that idea before the public while you were still thinking about it.

The history of this world is full of instances where two or more men were working on the same idea and where the one who reaped the reward was the one who brought his idea first before the public.

The patent office and the international copyright, especially the former, are in existence because ideas are not exclusive properties occurring to only one man. Two, five, a dozen men unknown to each other and separated by thousands of miles may be working on the same new idea.

The successful man is the man who first translates his thought into action.

He is the man who when an idea comes to him sets himself immediately to the task of realizing his idea as something other than a mental fancy.

An idea which is not in action, which is not materialized, is nothing more than a mental toy.

It is useful, worthy, and profitable only when it is a visible fact.

O'CALLAGHAN STAYS

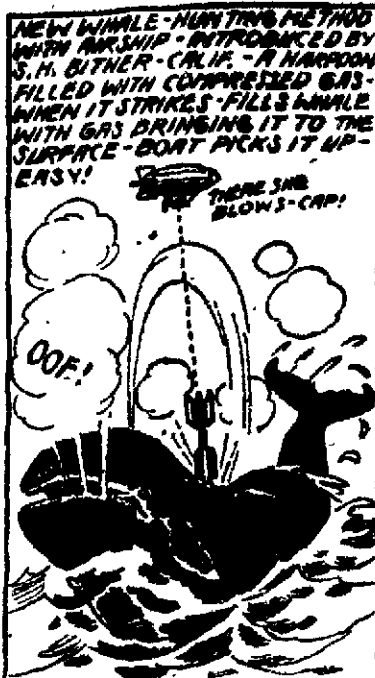

HIS right to remain in America so long as he desires has been won by Donal O'Callaghan, Lord Mayor of Cork, Ireland. Efforts to deport the famous Irishman which began with his arrival in America as a stowaway on a vessel, have been dropped.

Officials of the state and labor departments, which originally had part in the O'Callaghan proceedings, have lost interest. It isn't likely that anything further will be done toward getting him out of the country. Labor department officials stated that the whole matter was in the hands of the state department. Ideas of that department admitted it, but said they were doing nothing.

When, a few weeks ago, Donal O'Callaghan visited Lima, he presented a pathetic but brave figure. He brought to America the message of Ireland's plight, realizing that to fall into the hands of the British meant death or worse for him. Deportation meant just that for his presence could then not have been concealed from the British.

The hearts of Irish sympathizers are filled with joy for the outcome of the O'Callaghan case, since it has been determined that he is free to remain here as long as he likes and depart for his home shores in such manner as he deems fit, to protect himself in passage from detection by the English.

WHAT THE STARS PREDICT

This is an unlucky day. There is an indication that the United States will soon be involved in an important discussion of naval and military affairs. Railway problems will again occupy the mind of the public, and there may be trouble over unfairness arising from freight rates. The conditions of crops in England are not likely to be good this spring. Persons whose birthday this is, should use great caution in administering their money affairs, and avoid speculation. Children born today are likely to be quick-tempered and very charming, and must have good, practical education if they are to be successful. (Copyright, 1921)

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels. Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles. Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel. Dr. Edwards' Olive Tablets are a pure, vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without any cramps or pain. Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.

'ADAM AND EVA' WITH US BASE BALL TEAM AT FAUROT TODAY FOR WAPAK

Scintillating Comedy of American Life Comes Direct From New York

Stock Company Opens at Orpheum Theatre Monday—The Movie Program

ONE of the most genuinely witty and diverting plays that has been produced in many seasons is the Guy Bolton and George Middleton comedy of American domestic life, "Adam and Eva", which is at the Faurot today after a year's run at the Longacre Theatre, New York. With a wealth of brilliant lines and characters typically human, it satirizes the fads and weaknesses of the smart Long Island set in a manner that is most amusing.

There is, for instance, James King, a wealthy widower who is perpetually harassed by demands for money and engulfed with monthly mountains of bills incurred by his family. And there are also the Clinton De Witts, his daughter and son-in-law; a younger daughter, Eva; a fussy, cynical old uncle; and a club-cracy maiden aunt, who compose this wasteful and thoughtless family of idlers.

King, in desperation plans a business trip to South America and instructs his young business manager, Adam Smith, to run and direct his family household affairs as he would any other business assignment. Smith, for his part, briskly proceeds to obey these orders with an admirable attention to detail. He curtails allowances and cancels charge accounts with a firm and indiscriminate hand, thereby causing riot and pandemonium in the family. Not content with merely this, however, he further upsets the even tenor of the lives of his charges old and young, by convincing them that the King fortune has been entirely wiped out in a flurry of the market, thus making the earning of money by these erstwhile dwellers in the lap of luxury an absolute necessity. The manner in which these ill-fingered idlers, to whom work has hitherto been merely a word, become earnest and faithful members of the laboring class, thru the divers mediums of poultry, haberdashery and insurance policies, how they succeed and ultimately find a contentment and happiness formerly unknown and undreamed of, is the story of the play.

Comstock and Gest, under whose management the company is touring have sent here a class of players in keeping with the New York production among whom will be Miss Lots

Bolton—one of the best known comedians of the present day, Mr. Coates Gwynne, Mr. Charles E. Bird, Mr. Charles Horn, Miss Rosemary Hilton, Mr. Frank K. Knight, Miss Adelyn Wesley, Mr. Fred C. Palmer, Miss Roma Weaver and Mr. Joseph Prosser.

Fans Financing Project in Enthusiastic Manner

TO HAVE SALARIED PLAYERS

Mrs. Milo Bitler is Victim of Blood Poisoning

WAPAKONETA — (Special) — A movement is on foot to finance a baseball team in Wapakoneta for the coming summer. Frank K. Lutz is circulating a petition for funds and up until Friday had secured in the neighborhood of \$150. A suitable location for a diamond is the big bugbear, but that matter is expected to be arranged satisfactorily at a meeting of the subscribers soon.

Since the fans here dropped the proposition of participating in a league of ten cities and towns in this section of the state there has been more or less doubt about baseball, but with this latest movement new impetus is lent.

As far as possible efforts will be directed in financing a salaried team, securing a park and providing the players with uniforms and other paraphernalia. The proposition will

Honest Advertising

THIS is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be.

That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained.

Imitations are to be found in some stores and only because of the Castoria that Mr. Fletcher created. But it is not the genuine Castoria that Mr. Fletcher honestly advertised. Honestly placed before the public, and from which he honestly expects to receive his reward.

undoubtedly be brought up at the meeting of the board of directors of the chamber of commerce Monday and at the general session April 12.

Prof. E. L. Dakin, Ohio State University poultry specialist, will be in Anglatz-co from Tuesday until Saturday next week for the purpose of conducting demonstrations at the 11 poultry demonstration farms. He will advise as to correct feeding and rearing of young chicks.

Mrs. Milo Bitler has been suffering from blood poisoning in her right hand, the result of a cut and the accidental introduction of coloring matter into the wound, while making a paper hat for her six year old daughter, whose death occurred later, on Easter Sunday. Surgeons operated on Mrs. Bitler's hand Friday.

County Surveyor House and assistants are preparing plans for a new concrete bridge over the Miami & Erie canal at Monroe-st, New Bremen. Structure is to be 54 feet long, 52 feet wide and with an arch of 15 feet.

just in time to escape the March vital statistics report.

Beginning Monday, the offices at the Court House will open at 7 a. m. and close at 4 p. m. to allow attaches plenty of daylight to make garden.

Immanuel Rodeheffer, Senior in high school, was badly burned about face and eyes Thursday afternoon when a test tube containing concentrated sulphuric acid burst and contents spattered over him.

Wapakoneta Rifle club is expecting to lay out a rifle range for small arms along the banks of the Auglatz river on the Earl Wingert farm north-west of this city. The club still retains its long distance range on the Cross farm near the city.

A Few Truths About Black Beauty

ONE OF THE TRULY BIG PICTURES OF THE YEAR.
—HAILED AS MOST REFRESHING NOVELTY—SOMETHING NEW—

In presenting to our patrons this coming Sunday the truly big picture novelty of the year, we feel we are giving Lima theatre goers one of the best motion picture features ever offered in the city.

Taken from the famous book by Anna Sewall is has been adapted for pictures by Mr. and Mrs. George Randolph Chessler, retaining all the fine sentiment of BLACK BEAUTY'S own autobiography, even to the least important of the characters who figured in the touching and thrilling episodes of this horse's life, and adding a love story that ranks high along with the other absorbing works of fiction.

WORKERS SET FOR DRIVE OPENING

Filling Community Chest Begins
in Earnest Monday

"For the first time since the Victo-
ry Loan drive, the community has
the old fighting spirit and I predict
that the Community Chest drive will
be a great success," said the Rev.
Kirk O'Hare at the final meeting of
campaign workers at the Cham-
ber of Commerce Friday night.

"The ideals of yesterday are the
truths of today," said Walter Jack-
son. "The public is well aware that
the Community Chest is a sound and
economical solution of the charity
and welfare problem and will not
hesitate to respond to the call for
donations."

George E. Bayley spoke on sales-
manship and it was decided that the
drive should be a "campaign of
smiles" and that discouragement
shall have no part in it.

"The drive for \$20,000 to fill the
Community Chest and finance the
nine local welfare organizations will
start at 10 o'clock Monday morning
and will continue thru the week.
General A. W. Wheatley and his
army of 200 workers will be on the
job every minute.

"One drive for funds instead of
nine," is the big selling point of the
campaign. "Donate once and you
will be asked to donate no more this
year."

SMALL FIRE: LITTLE DAMAGE

CARRINO TAKEN ON GUN TOTING CHARGE

All speculation was set aside Sat-
urday, when it was announced the
remaining four indictments, re-
turned by the grand jury last Wed-
nesday, were for non-support.

Indictments charge abandonment
of minor children or a child. The
persons indicted are now under ar-
rest. No indictments were returned
for alleged whiskey violations, altho
the grand jury made investigations
along this line, it is known.

James Carrino, whose case was in-
vestigated by the grand jury on the
charge of malicious destruction of
property, was arrested Friday night
by Sheriff Baxter, charged with car-
rying concealed weapons. Carrino is
in jail. He will probably be ar-
raigned Monday.

PLUMBERS ENJOIN COMMISSIONERS

Suit Affects Heating Plant at Children's Home

Seven plumbing and heating firms
in Lima filed action Saturday mor-
ning for an injunction, restraining
Allen-co commissioners from pro-
ceeding with the installation of a
heating plant at the Allen-co Child-
ren's Home.

They charge that commissioners
seek to install a Moline Vapor heat-
ing plant in the administration cot-
tages, juvenile building and school
house at the Children's Home. The
petition sets forth the contract is
illegal, because there was no com-
petitive bidding, as required by
law.

They also state that the heating
system is patented and the Williams
Brothers company, Lima, have the
exclusive right to sell the same, caus-
ing a monopoly and excluding com-
petitive bidding. Misapplication of
funds is claimed.

The petition also charges that re-
quest was made of Prosecuting At-
torney E. T. Lippincott to file the
suit, but that he refused and the
heating companies and plumbers
joined together to contest the issue,
as taxpayers.

The contract for the work was let
February 14, 1921, for \$12,957. C.
R. Phillips, county auditor, and Lehr
E. Miller, county treasurer are made
defendants in the case, with the
commissioners.

Plaintiffs are C. C. Cowles, do-
ing business as the Lima Plumbing
and Heating company; the John M.
Morgan company, the Theodore O.
Scheld company; George Weber and
Carl Hovey, as the Elizabeth-st
Plumbing company; E. B. Jones and
Thomas W. Kinn, as the Jones-Kinn
company; John Scully and Terry Mc-
Intyre.

No hearing has been set for the
injunction. "I do not know that we
will push the matter of an injunc-
tion," Attorney Melvin G. Light, who
filed the petition, said. "If commis-
sioners wish to take a chance on
continuing the work, we are will-
ing."

PRISONERS TO BE SENTENCED SOON

Inducted Persons Arraigned Fri-
day Afternoon

Prisoners who pleaded guilty, Fri-
day afternoon, upon arraignment on
indictments returned by the recent
grand jury, will have sentence pas-
sed upon them the first of the week.
Judge F. C. Becker is now studying
each individual case.

Frank Johnson and James Hur-
bert, pleaded not guilty. Chandler
Hurlbert was not arraigned. All
three were indicted for burglary and
larceny.

Grant Seymour, arrested at Del-
phos for forgery, pleaded not guilty,
altho it is said he confessed to police
he had operated extensively preced-
ing his apprehension.

Peter Belts, indicted for carrying
concealed weapons, was given a fine
of \$5 and costs.

Fred Walters pleaded guilty to
burglary and larceny. Charles Ally
said he was not guilty of burglary
and larceny. Chester Woods plead-
ed not guilty to an indictment
charging forgery and his trial was
set for April 18.

Willie Smith pleaded guilty to an
indictment of burglary and larceny
and Howard Van Horn said he was
not guilty of an indictment of like
charges.

Henry Winkel pleaded guilty to
carrying concealed weapons and was
given a fine of \$10 and costs. He was
ordered remanded to jail until fine
and costs were paid.

ENGAGED, LAND IS DEEDED AWAY

Widow of Matthias Bockey Brings
Suit for Dower

Legality of transfer of property
to children, after engagements in
marriage, is to be tested in common
pleas court in the action of Mrs. Mary
Bockey, widow of the late Matthias
Bockey, against John E. and Mary
Bockey and other of her husband's
children.

Mrs. Bockey sets forth that in Sep-
tember, 1906, Bockey asked her to
become his wife and that she ac-
cepted. Their marriage occurred in
October, 1907.

Without her knowledge, she says,
in June, 1907, he transferred a tract
of land of 86 1-2 acres in Washing-
ton-twp, Van Wert-co, to his four
children. The deed was not placed
on record until in March, 1909,
nearly two years after the marriage.
The Bockey estate amounts to
nearly \$75,000 and includes more
than 200 acres of land and two
properties in Delphos. Mrs. Bockey
is seeking to have the deed for the
Van Wert-co land disregarded by the
court and is asking her dower in
that tract of land and that Bockey's
other property be set off to her.
